If you have ever taken the mercury and potash mixtures, you should take S. S. S. to clear your system

Caution.-Like every other article of merit S. S. S. is imitated, aped, and pirated on by all sorts, shapes and sizes of impocunious creatures who hope to make money on its reputation. Many of these vile compounds contain Mercury, Potash, Arsenic, and other peisons, and are positively dangerous to use. An imitation is always a fraud, and flourishes only as it can rob the public.
